- Clarity in your audio/video conference
- Hosted PBX solutions
- Virtual Office
- Remote Service

Clarity in your conference

With your current technology, how clear is the audio in your conference calls? Does the far end find your audio clear and intelligible? If not, we have the answer. Using our beamforming microphone arrays and amazing Digital Signal Processors, there isn't a bad seat in the house.

As a technology solutions provider, one phone call is all you need to resolve your issues. No more Rolodex full of numbers. Call **901-398-2355. AV Solutions Plus LLC.**

Hosted PBX Solutions

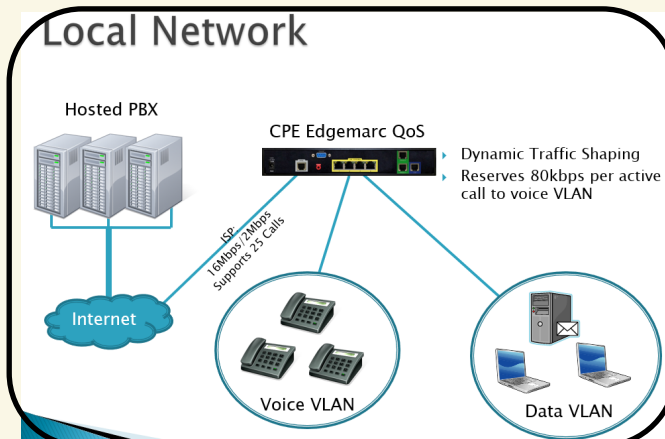

Are you ready for VoIP??

Key Advantages

- ◆ **Big business feel, small business price**
 - Unlimited local and long distance (USA & Canada)
 - Virtually no hardware to manage
 - Moves, adds, and changes controlled remotely at no cost
- ◆ **Keep your phone number**
- ◆ **Offsite Locations (satellite office, remote user)**
- ◆ **Scalable from 1-500 users**
- ◆ **Easy to use customer web portal**
- ◆ **Unlimited software updates at no cost**

What we do:

- Audio - Video - Paging - Hosted PBX - ISP - CCTV
- Access Control - Digital Signage - Interactive Collaboration - Conferencing
- Remote Support

Are you ready to:

▶ Increase

- Client and user service level and quality
- Overall management and control
- PBX Functionality
- Cost Predictability

▶ Reduce

- Monthly phone charges
- Ongoing hardware maintenance costs
- Risk of hardware failure and/or downtime

Virtual Office

- ◆ Increase productivity by eliminating your commute time and decreasing your frustration by avoiding traffic snarls
- ◆ No parking fees to deal with
- ◆ Hold meetings in your home with simple to use, inexpensive conference solutions to connect to your participants
- ◆ Feeling a little "under the weather", get your work done without exposing others to your malady

Let AV Solutions Plus help you with solutions you need to work from home. We offer the technology you need to have your office in your home. We also offer ISP solutions as well as telephone services. Give us a call at **901.398.2355**, and let us help you on your way to become a virtual employee. **This is the future.**

Remote Service

Would you like to reduce your service costs to keep your technology optimized? We can help. We have the ability to remotely monitor all the Internet connected equipment that we install and most of your IP connected devices.

This can help to identify issues even before you are aware. We also have the ability to remotely connect to network devices and provide some remedial service, program changes and even some repairs. This lowers our costs and consequently lowers yours. And, because we don't have to travel, you get faster response with reduced costs. We can get more done in less time. **Win! Win!**

Contact AV Solutions Plus to find out how we can provide remote

Support/Service.
